

# Medical Director Accessing Immunisation Information

**Note:** These steps assume that your software is connected to the My Health Record system, the patient has a My Health Record and their individual healthcare identifier (IHI) has been validated in your system.

<p><b>STEP 1:</b> To access the patient's My Health Record, select <b>My Health Record</b> from the top menu.</p>	
<p><b>STEP 2:</b> The Document List will appear, displaying documents in the patient's My Health Record (subject to any search filters which are set).  Double click on <b>Immunisation Consolidated View</b> to open and view the document.</p>	
<p><b>STEP 3:</b> The <b>Immunisation Consolidated View</b> will display with the <b>Australian Immunisation Register</b> tab displayed by default.</p>	
<p><b>STEP 4:</b> Details of a patient's immunisation status including details of <b>next immunisation(s) due</b> will also be displayed if recorded in AIR.</p>	

The **COVID-19 Immunisation Status** field displays as:

- 'This individual has **not** received all required COVID-19 vaccines' if someone has had only one vaccine; or
- 'This individual has received all required COVID-19 vaccines.'

If no COVID-19 vaccines have been received, the status isn't displayed.

If there is additional information recorded in AIR, this is displayed in a **Notices** section. This may include details about immunisation exemptions or participation in vaccine trials.

National Immunisation Program (NIP) status:		up to date
COVID-19 Immunisation Status:		not up to date
Next immunisation/s due		Date due
Cervix/ut		02 Apr 2021
Notice/s		

### STEP 5:

Click on the **Immunisations** tab to access available immunisation information recorded in the Australian Immunisation Register and held in any shared health summaries or event summaries in a patient's My Health Record.

You can click on any hyperlinks within the immunisations list to view the original source document.

From this view you can also access the most recent **shared health summary** and **event summary** that contain immunisation information.

**Australian Immunisation Register**  
Displays all the immunisation information recorded in the Australian Immunisation Register

**Immunisations**  
All the immunisations recorded in both the Australian Immunisation Register and this My Health Record
