

**If you are GP, currently or previously in practice,  
we would love to hear from you!**

**Participation will involve a short 15-minute online survey  
about prescribing psychotropic medication in  
pregnant and breastfeeding women**

**After this survey, you can elect to take part in a telephone or online interview  
to help us understand psychotropic prescribing practices and  
challenges to GPs within clinical practice**

**Interviews will take approximately 45 minutes.  
Interview participants will receive an honorarium for their time**

**For more information contact Dr Jacqueline Frayne at [jacqueline.frayne@uwa.edu.au](mailto:jacqueline.frayne@uwa.edu.au)  
Alternatively, follow this link  
or scan the QR code below to start the survey**
