

Aged Care and MBS Updates: Integrated Care Opportunities

Presented by WA Primary Health Alliance

As Australians continue to live longer, they are more likely to develop multiple health conditions and chronic diseases. Recent evidence suggests that the adoption of integrated care is needed to provide the best possible care for older adults especially for those with multiple care needs and comorbidities.

Join WA Primary Health Alliance (WAPHA) and a panel of experts in the field to learn about the available resources in Western Australia for integrated care for older adults, pathways to incorporate integrated care into practice and the new Medicare Benefits Schedule (MBS) items to support the provision of comprehensive care for residents in residential aged care facilities (RACFs) including items for multidisciplinary care plans during the COVID-19 pandemic.

This interactive and informative webinar will feature relevant clinical case studies and a panel discussion.

Event Information

When: Wednesday 27th April 2022

Where: Online

Time: 17:30 – 19:30

Cost: Free
