

2022 Influenza vaccine ordering and distribution schedule

Guidance for providers

What is the 2022 Influenza vaccine ordering and distribution schedule?

- It is a guide to help you plan vaccine ordering before and after the pre-allocation period.
- Please note that all dates are dependent on the availability of vaccine, and are subject to change.

Key actions:

- Review the number of doses pre-allocated to you by 5 pm 15 March 2022 to receive a pre-allocation of Fluad® Quad between 30 March and 6 April.
- Place orders for non-flu vaccines before COB 22 March, to ensure enough supply during pre-allocation period.
- Plan to receive pre-allocated vaccines between 30 March and 6 April.
- Once you have received your pre-allocation, you may place orders for influenza vaccines for other age groups from 6 April.
