This course is funded for you by WA Primary Health Alliance. Please use code CA-WAPHA to enrol at no cost. Register early as places are limited and will fill quickly.

## Value for organisations

Develop a greater understanding of Urgent Care Service situations dealt with in Primary Care through a range of specific clinical scenarios and circumstances. For Primary Healthcare staff to build knowledge on when to manage/escalate emergencies in a primary setting when presented with an injury or illness, including preparing a patient for hospitalisation.

## Learning Outcomes

- Prepare nurses for triaging, assessing, treating and managing patients that physically present to UCC.
- Upskill, the nursing team, to be confident and competent in managing acute presentations and conditions.
- Improve awareness and understanding of how different conditions present in illnesses, injuries and emergencies.
- Recognise limitations and when to escalate care to ensure patient safety is maintained.
- Practical training using theoretical small-group scenarios based on acute presentations and conditions.
