

Community CAMHS update

Changes to online referral form and public website information

Dear Referrers

For the 10 metropolitan Community CAMHS teams, we have recently made these changes:

Updated our [website](#) to better describe the cohort of children and young people that we assess and treat in our clinics, providing greater clarity for young people, families and referrers.

- [Child and Adolescent Health Service | CAHS - Community CAMHS](#)

Updated our [website](#) to more clearly describe our processes for intake and the first clinical appointment (the 'Choice' appointment).

- [Child and Adolescent Health Service | CAHS - Community CAMHS](#)

Updated our [referral form](#) to capture more information, including the above changes regarding our referral criteria and who we provide services for.

- Please use this form for future referrals: [Community CAMHS referral form](#)

Updated our [About Community CAMHS public brochure](#). Please share with your clients/patients.

- [Child and Adolescent Health Service | CAHS - Referrals to Mental Health - CAMHS](#)

Thank you for taking the time to read this update. Please forward on to other professionals who may refer to us.
