

THE UNIVERSITY OF
MELBOURNE

Calling all GPs, Practice Managers and Practice Nurses

The University of Melbourne, Royal Australian College of General Practitioners (RACGP), Australian Association of Practice Management (AAPM), Australian Primary Health Care Nurses Association (APNA) and the VCS Foundation have undertaken a project for the Commonwealth Department of Health to understand how the primary healthcare workforce engages with the national cancer screening programs (bowel, breast and cervical). Findings from this study have led to the development of communication materials to assist in boosting participation, education and engagement.

We recognise the importance of the whole clinic in improving cancer screening and would like to invite you to participate in a focus group discussion (via Zoom) to review and provide feedback on the developed communication materials. The focus group discussions will occur in early December, with all participants receiving a \$50 gift card for their time.

Interested in participating or want to know more?
