

# SEEKING MEDICAL PRACTITIONERS: SHARE YOUR THOUGHTS ON MEDICINAL CANNABIS

Researchers at Monash University are recruiting medical practitioners to participate in a study examining the factors influencing the uptake of medicinal cannabis in clinical practice. We invite practitioners across all specialties and with all levels of knowledge, interest and clinical experience with medicinal cannabis to participate.

## **What is involved?**

- Participating in a 30 minute one-on-one interview at a time and date of your choice, either in-person or via telephone or videoconferencing.
- A chance to share your professional opinion on medicinal cannabis, the facilitators and barriers to prescribing, and your support needs.

**Your perspective is important to ensure safe, appropriate and effective community access to medicinal cannabis products in this emerging area of medicine.**

For more information and expressions of interest please contact Olivia Dobson
