

Bringing Imaging to Aged Care in partnership with WA Health

NEW SERVICE MODEL FOR WA

For over **13 years**, **Mobile Radiology Australia (MRA)** has been delivering **high-quality, bedside X-ray and ultrasound services** to aged care residents across Australia. We are now proud to extend our unique service to **Western Australian facilities**, your residents, carers and families alike.

FAST, CONVENIENT, AT THE BEDSIDE

ULTRASOUND EXAMS INCLUDE:

- Abdominal
- Renal
- Pelvis (Transabdominal Only)
- Small Parts and lumps
- Vascular Doppler Studies
- Musculoskeletal

X-RAY EXAMINATIONS INCLUDE:

- Chest
- Abdomen
- Spine
- Pelvic girdle and hips
- Skull and Facial Bones
- Extremities (Upper and lower)

-  Our highly trained team coordinates everything to do with the imaging examination and communicates directly with family and clinical teams to streamline our attendance.
-  All imaging is performed in the comfort and privacy of your family member's room.
-  Routine reports are available on the next day with urgent findings relayed on the same day as clinically needed.
