to CA2: 3.0 points and CA4: 1.0 point**

STRANGULATION PREVENTION TRAINING

The Women's Council for Domestic and Family Violence Services WA is pleased to partner with Stopping Family Violence to bring to Perth, world acclaimed specialist trainers from the San Diego Institute on Strangulation Prevention. Previous training held in Brisbane and Canberra has been an outstanding sellout success. The training is designed to advance our knowledge and practice skills as well as assisting with successful medical interventions and prosecutions of non-fatal domestic violence strangulation.

Strangulation has been identified as one of the most lethal forms of domestic violence and sexual assault: unconsciousness may occur within seconds and death within minutes. Attendees of this training learn how to: identify the signs and symptoms of near-fatal strangulation cases; understand and recognise the anatomy and medical aspects of surviving and non-surviving victims; investigate and document cases for prosecution; prosecute cases, including using experts in court; and, most importantly, enhance victim safety through trauma informed advocacy services.

Gael Strack, Esq.

The CEO of Alliance for HOPE International and oversees the Alliance's Training Institute on Strangulation Prevention. She is a former prosecutor and the founding Director of the San Diego Family Justice Centre. She spearheaded much of the initial work and research on strangulation crimes from a prosecutor's perspective.

Dr William Smock, MD

A member of the National Strangulation Training Institute Advisory Team. He is A Police Surgeon, Louisville Metro Police Department, Louisville, Kentucky.
