

Paediatric asthma: breathing new life into diagnosis and management

NPS MedicineWise is offering two free small group online educational sessions for WA pharmacists via ZOOM.

These sessions will focus on important differences between diagnosing and managing asthma in preschool and school-age children, and how children's asthma differs from that of adults.

Information and resources provided as part of this educational visit

- Discussion covers the latest guidelines for the diagnosis and treatment of paediatric asthma
- Advice on when regular preventer treatment is required and how to optimise different preventer options for the two age groups
- Patient resources on spirometry and inhaler technique
- Information on recently updated adult and adolescent asthma guidelines

You can self-record this educational visit as part of your CPD portfolio.

To book your place, please complete the details below and return to Nicole Humphrey:
