

2022 Wound Management Workshops: Regional Toward Sustainability in Clinical Practice

Busseton, Albany, Geraldton

Program Overview

This interactive four-hour workshop has been designed to enhance your capacity to assess and treat complex wounds in the primary care setting. The workshop utilises a sustainability framework devised to enhance clinical outcomes, whilst minimising the economic, social and environmental impacts of care. As a participant, you will leave the workshop with an innovation strategy for your workplace designed to translate learning into sustainable practice.
