Women's Health Event

August 2023

The team at Western Diagnostic Pathology warmly invites your team to save the date for our upcoming event, where you'll get the opportunity to hear from our highly qualified team on topics surrounding women's health including reproductive health and pathology.

Topics covered include Ovulation Tracking & Menopause, Endometrial Cancer, Vulval conditions and Dermatology, Genetic Carrier Screening and Private Genetics/Counselling.

This free event is open to General Practitioners, Registrars and Specialists with an interest in Women's Health. Coffee and refreshments provided.
