Register early as places are limited and will fill quickly
To apply - [CLICK HERE](#)

The **Wound Management: Advanced Practice Program** includes a half day face to face workshop, in-class activities assessed by a qualified assessor, workplace observed practice and online assessment completed via accessIQ.

The face-to-face workshop will explore a range of complex case studies, treatment options, dressing applications, and a range of practical skills.

On the successful completion of the program, students should have the skills and knowledge to:

- accurately identify wound types
- apply appropriate wound assessment methods to clinical practice
- identify chronic wound features and associated clinical features including interpretation of wound terminology
- identify and perform appropriate wound cleansing and debridement methods
- obtain a compliant wound swab culture using best practice methods
- make informed appropriate choices of wound dressings based on accurate wound assessment.

BEFORE BOOKING A WORKSHOP: Please note, students need to complete **Wound Management: Foundations and Principles Program** before being able to book this workshop. The program is delivered completely online, to learn more please [click here](#) to view the program page.

You can apply for the foundations program and the workshop by clicking the link above.
