

Quality Improvement PIP

10 Measures Tracking Worksheet (by practitioner)

This worksheet can be used to set targets and track improvement in recording the 10 measures, along with two measures of your choosing. Measures 1-10 have been identified as priority areas by the Department of Health, and practices participating in PIP QI are required to submit data on these measures quarterly. Measures 11 and 12 can be customizable as practices may choose to focus on their own practice improvement goals specific to their patient needs.

How to complete

1. Choose one or more indicators to focus on, or create your own target areas
2. Enter a Practice Target and Practice Baseline for each indicator in the list
3. Enter results for each GP to help identify training needs and opportunities for improvement activities.

Measure	Practice Target	Practice Baseline	GP 1 Result	GP 2 Result	GP 3 Result	GP 4 Result
1. Proportion of patients with smoking status recorded						
2. Proportion of patients with alcohol status recorded						
3. Proportion of patients with weight recorded						
4. Proportion of patients with up-to-date cervical screening.						
5. Proportion of patients with diabetes with blood pressure recorded						
6. Proportion of patients with diabetes with current HbA1c result						
7. Patients with diabetes immunised against influenza						
8. Proportion of patients with COPD & immunised against influenza						
9. Proportion of patients over 65 immunised against influenza						
10. Proportion of patients with necessary risk factors to enable CVD assessment						
11.						
12.
