

# The benefits of using Primary Sense

Primary Sense is an easy to use population health management, clinical decision support and data extraction tool that helps GPs deliver the right care to patients at the right time. For further information, visit the [Primary Sense webpage](#) in the Practice Assist Tool Kit, email [practiceassist@wapha.org.au](mailto:practiceassist@wapha.org.au) or call 1800 2 ASSIST (1800 2 277 478).

## General practitioners

Includes the world's leading population health analytics software

Real-time medication safety alerts, patient-care prompts and notifications

Compatible with major clinical software systems

Designed by GPs for GPs in conjunction with data experts and researchers

Easy to use, with little or no training to get started

Extracted data is privacy protected, securely stored and managed in Australia

## General practice staff

Cost is fully subsidised for practices sharing full population health data set

Can be quickly installed by practice IT provider

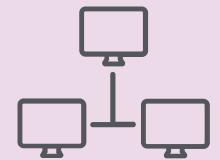

Easy onboarding process and easy to use

Saves time with one-click, on-demand reporting

Makes it easy to meet the PIP QI requirements

Can be used by clinical and non-clinical staff at the same time
