Webinar series: Shared care for ADHD in children

Join us for a webinar series designed to support general practitioners with increasing their skills in identifying, diagnosing and treating children with attention deficit hyperactivity disorder (ADHD), including prescribing and monitoring stimulants. The webinars are accredited for 3 RACGP EA CPD hours (1 hour each webinar).

Webinar 1: Wednesday 24 September 2025

- ADHD identification in primary care.
- Overview of ADHD assessment and diagnosis.
- Introduction to ADHD management.
- WA specific context for S8 stimulant prescribing (key facts).
- Stepwise approach to safe S8 stimulant prescribing and shared care.
- Introduction to the Clinician Assist pathway.

Webinar 2: Wednesday 22 October 2025

- Co-occurring conditions with ADHD and the functional impact of ADHD.
- Non-medication approaches and psychosocial support for patients and families.

To register for webinar 2, [click here](#) or scan the QR code.

Webinar 3: Wednesday 19 November 2025

- Commonly used medications for ADHD.
- Common adverse effects and common issues that can be addressed in primary care.
- Medication issues regarding compliance and diversion.
- Medication issues requiring paediatric review.
