

WAPHA LEARNING WEBINAR

Chronic disease management in general practice

Join us for an insightful and comprehensive webinar designed to equip general practice staff with the essential tools and strategies for effective chronic disease management.

This webinar will feature speakers from WAPHA's Quality Improvement (QI) team, interactive discussions and practical case studies to help you apply the key learnings in your practice.

Webinar topics:

- Understanding the fundamentals of chronic disease management.
- Developing personalised care plans for patients.
- Implementing evidence-based practices in daily clinical routines.
- Utilising technology and data to enhance patient outcomes.
- Collaborating with multidisciplinary teams for holistic care.
