WAPHA GP LEARNING

Exploring Quality Improvement Webinar

Optimise patient care and meet your Measuring Outcomes CPD requirements

Join us for this webinar to discover how the Quality Improvement (QI) team at WA Primary Health Alliance (WAPHA) can help you meet your Measuring Outcomes (MO) CPD requirements while driving meaningful improvements in patient care.

Key webinar takeaways:

- Understand how structured QI leads to better patient care and CPD recognition.
- Learn how WAPHA's QI Coaches provide hands-on support.
- Discover how Primary Sense can help identify care gaps and track improvements.
- See real-world examples of clinical and practice workflow improvements.
- Get started with WAPHA's RACGP CPD-accredited QI activities tailored to your practice.

The benefits of WAPHA's RACGP CPD-accredited QI activities:

- Time-efficient – tailored, focused and time-limited activities that integrate into your practice's workflow.
- Practice-driven – customised to meet your practice's needs, accreditation requirements and sustainability goals.
- Impactful – measurable improvements in patient health outcomes through data-driven QI.

Work smarter, not harder. [Click here](#) to register for the webinar or scan the QR code above.
