

## Using Prompts in Primary Sense™ Desktop:

Primary Sense™ Prompts focus on the most at risk patients and provide on screen prompts to highlight potential gaps in care including use of the Johns Hopkins complexity and hospital risk scores. Prompts will only generate when the patient file in the clinical software has been opened.

Click on the Primary Sense™ icon on the bottom toolbar to view the Primary Sense™ Desktop

On the sidebar, click on the 'prompts' icon. The prompts history that has been generated are presented. Double clicking a prompt in history will generate the prompt again for review with the original data.

	Time	Patient	Prompt	Action
<input checked="" type="radio"/>	2:46 PM	Walker, N	Due Microalbumin Pathology	Not Actioned
<input type="radio"/>	2:46 PM	Walker, N	Due Heart Health Check Assessment	Not Actioned
<input type="radio"/>	2:46 PM	Walker, N	Missing CV Risk Medication	Not Actioned
<input type="radio"/>	2:46 PM	Martin, K	Due Medication Review	Not Actioned
<input type="radio"/>	2:46 PM	Martin, K	Due Care Plan	Not Actioned
<input type="radio"/>	2:46 PM	Martin, K	Due Influenza Vaccination - check COVID vax	Not Actioned

Clicking on settings, shows prompts available and if they are opted in/out.
