

WAPHA LEARNING WEBINAR

Health assessments made easy

Turning reports into patient results

Join us for this practical, quality improvement (QI) webinar that will focus on enhancing health assessments to support preventative, proactive patient care in general practice.

Webinar topics:

- The purpose of health assessments in general practice.
- Common target groups for health assessments and how different Medicare Benefits Schedule (MBS) items apply.
- Key compliance considerations for the different MBS health assessment items.
- Adding value for patients by offering additional screening, preventative health considerations and referrals.
- Using Primary Sense reporting to identify eligible patients and support recall workflows.
- Using practice data to complete a simple QI activity for health assessments.
- Developing change ideas and mapping them into a PDSA cycle to test and refine.
