

WAPHA LEARNING

Practice Manager

Virtual Networking Session #6

Join us at our sixth Practice Manager Virtual Networking Session, which will provide an opportunity to connect, discuss topics of interest, share information and raise questions with your WAPHA support team and other local general practices.

These virtual sessions will be held every two months. When you register for each session, you can indicate which topics you would like to be discussed.

The topics could be about anything that is important to your practice or information on practice-related matters such as accreditation, reform measures, incentives, MyMedicare, digital health, quality improvement, immunisation, cancer screening or WAPHA programs and projects.

To make the most of these virtual sessions, you will need to have access to a microphone and camera, if possible.

Please note: Sessions are for GP Practice Managers only.
